ABOUT ME

I am a year 2 Electrical and Electronics Engineering student at Kyambogo University with strong interests in analog circuits and embedded systems. You can find my portfolio at: <https://emmyjay256.github.io/portfolio/>

EDUCATION

Dates	Institution	Award	Grade
2024 - Date	Kyambogo University	Bachelors of Electrical and Electronics Engineering	Currently First class
2022-2023	Ngora High School	Uganda Advanced Certificate of Education	PCM - 20 points
2017-2020	Kiira College Butiki	Uganda Certificate of Education	11 Aggregates

PROJECTS

- 1. Arduino Auto-Aiming System:** Built a joystick-controlled one-degree-of-freedom project with Arduino.
- 2. SMPS Design for FDM 3D Printer:** Did component sizing for 3D printer SMPS circuits
- 3. Solar Feasibility Study:** Developed Space Copy 3D printer power-consumption model for lunar operation.
- 4. AI Exoplanet Detection:** Built AI models to detect exoplanets from FITS data with visualization on Three.js.
- 5. Engineering 3D animations:** I have created many 3D animations with Blender to explain how things work.

WORK EXPERIENCE

- 1. Space copy inc.**(Jan 2025 - date) Researched on feasibility of solar operations for 3D printing on the moon.
- 2. Students Satellite program.** Joined the satellite design team for Kyambogo University in January, 2026.
- 3. Xdroov.** I host the Uganda National Math Contest Prep app and have made regular updates since 2023.
- 4. Right for Education Africa.**(2022 - 2024) Published articles on technological advances in Africa.

SKILLS

SMPS design, Blender, Solidworks, Matlab, Android development, Arduino, 3D printing

HONOURS AND AWARDS

1. Represented Uganda at the IMO 2023 Chiba, Japan.
2. Won the advanced level math contest national trophy for the year 2023.
